

Maths Day 5 Complete the calculations and the sentences. Use the counting sequences to help you.

a How many ice-cream scoops altogether?

$$2 + 2 + 2 + 2 + 2 = \underline{\quad}$$

There are groups of

ice-cream scoops which is equivalent to .

b How many single cherries altogether?

$$2 + 2 + 2 + 2 = \underline{\quad}$$

There are groups of

cherries which is equivalent to .

c How many petals altogether?

$$5 + 5 + 5 + 5 = \underline{\quad}$$

There are groups of

petals which is equivalent to .

d How many light bulbs altogether?

$$5 + 5 + 5 = \underline{\quad}$$

There are groups of

light bulbs which is equivalent to .

e How many fish altogether?

$$10 + 10 + 10 = \underline{\quad}$$

There are groups of

fish which is equivalent to .

f How many apples altogether?

$$10 + 10 + 10 + 10 + 10 = \underline{\quad}$$

There are groups of

apples which is equivalent to .

g How many pencils altogether?

$$10 + 10 + 10 + 10 = \underline{\quad}$$

There are groups of

pencils which is equivalent to .
